

Shelter for Orphans of the Storm (SOS), Inc.

Description:

SOS is a non-profit agency that provides Hope for both People and Animals through our various programs including animal-assisted therapy. SOS is teaching for a more compassionate world and seeks to promote and enhance healthy, humane behavior toward all living creatures. SOS bases its principles on Christian beliefs. All faiths and people are welcome to SOS. Being in recovery from an eating disorder I have a special interest in counseling others with eating disorders, anorexia, bulimia, binge and over eating. We work with parents for support, individuals, families and groups. Our focus is on youth, women's issues and men for self-esteem, mood disorders, alcohol and drug problems, domestic violence and crises/coping skills.
