

Walden Behavioral Care

Description:

Walden Behavioral Care treats all forms of eating disorders; males and females, adolescents, and adults. Walden Behavioral Care also works with Athletes and Compulsive Exercisers, Food Addiction, Binge Eating Disorder, Compulsive Overeating, Obsessive Compulsive Disorder (OCD) and Body Dysmorphic Disorder (BDD). Walden Behavioral Care has responded to the evolving knowledge of eating disorders by becoming one of the first hospitals in the country to offer the full "continuum of care" for treating eating disorders. We offer: Inpatient care, Residential care, Partial hospitalization, and Intensive outpatient care. For those with advanced eating disorders, 24-hour monitoring and nursing care are essential. Treatment at this level stabilizes the patient in preparation for intensive behavioral, medical, nutritional and psychological therapy. Walden is one of only a few hospitals in the country to offer acute inpatient care in a specialized, dedicated program. Inpatient care typical
