

A Better Way Counseling Center Eating Disorders Program

Description:

We provide one free support group for sufferers of eating disorders and one for family, friends and sufferers. As a service to our patients and to the community we offer these support groups free of charge. In our program, together the staff and the patient select the best combination of treatment for an individualized recovery program. We offer individual, group, couple and family counseling, and have a specialized team of physicians, psychiatrists, art therapists and dietitians with whom we work very closely. We can provide spiritual support that fits with the individual's goals. Our coordinated outpatient program can be intensive or moderate depending on each individual's needs. We have been treating eating problems and disorders and body image issues for 15 years. We work with children, adolescents and adults of all ages.

Call, email or visit our website to receive information about these groups and to receive a free pamphlet describing the 7 Steps to Recover from Eating Disor
