

Beau Cote Centre For Eating Disorders

Description:

Beau Cote is a unique and progressive residential centre exclusively devoted to helping women aged 19 and over in their struggle with anorexia, bulimia, compulsive overeating/binge eating and other related disorders.

The Beau Cote "beautiful dimensions" model is designed in a holistic way to be responsive to the mind, body, feelings, relational, and spiritual dimensions of each person in our care. Only when the whole person is treated can recovery from an eating disorder begin.

Situated on serene Bowen Island, B.C., a beautiful and inspiring setting, just 20 minutes by ferry from Vancouver, Beau Cote combines a home-like setting with a compassionate and dynamic healing environment that supports our patients in achieving a balanced and lasting transformation.
