

**Your Path Hypnotherapy - Meredith Locher, MA,  
CH**

Description:

10 years experience working with Eating Disorders - Anorexia, Bulimia, and Compulsive Overeating. This is not your average hypnotherapy, but an in-depth process which resolves the feelings that are driving the eating disorder in a much more efficient, effective and long-lasting way than traditional therapies. My clients complete their process with their issue resolved AND new clarity about their life purpose, love for themselves and an excitement for life that was long overdue. Let me help you get back on track, on your path to health and happiness.
