

Andrea Vazzana, Ph.D.

Description:

I am a licensed clinical psychologist and experienced clinician with over 10 years of patient care. I am a member of the Academy for Eating Disorders and have completed specialized eating disorders training in Cognitive Behavioral Therapy and Family Based Therapy (Maudsley). I also am intensively trained in Dialectical Behavior Therapy. I treat the full range of eating disorders including selective eating disorder, bulimia nervosa, anorexia nervosa, and binge eating disorder. I conduct bariatric evaluations for individuals considering weight loss surgery and provide weight management services for overweight individuals. Parent consultation and training are also available to help toddlers and young children establish healthy eating patterns.
