

A Center for Eating Disorders

Description:

A Center for Eating Disorders (ACED) brings together an experienced, compassionate staff and the most effective treatment methods to create a place for healing. Our treatment team is the most experienced group of eating-disorder professionals under one collective roof in the state of Alabama.

We offer personalized treatment for each client to address the entire person: mind, body and spirit. ACED provides full-day programming six days a week, as well as evening and weekend programming, nutritional services, individual therapy, and group therapy.

A Center for Eating Disorders treats Anorexia and Bulimia; males and females, adolescents, and adults. We also work with Athletes and Compulsive Exercisers and Body Dysmorphic Disorder (BDD)

Anorexia, bulimia and other forms of eating disorders are serious illnesses, but they can be overcome at ACED, a place of courage, community and collaboration.
