

Abigail Bartus, MSS, LSW

Description:

Mrs. Bartus provides individual psychotherapy to adolescents, women and men, specializing in the treatment of eating disorders. She integrates her experience from her work at the Renfrew Center with women in the intensive outpatient program, providing both individual and group therapy. This support often includes focus on comorbid conditions, such as depression and anxiety. Mrs. Bartus's therapeutic orientation is highly client-centered and focused on the strengths of the individual.
