

Acoria Eating Disorders Treatment Center

Description:

The Acoria Eating Disorder Treatment Center specializes in working with people with emotional eating, compulsive eating, binge eating issues, and/or a binge eating disorder. Our coordinated Outpatient care in Cincinnati may include a licensed therapist, a registered dietitian, and/or a trained Life Coach (A Weigh Out Life Coaching). Therapy is offered in Cincinnati, only. A Weigh Out Coaching is typically conducted by telephone. Therefore, when Telephone Coaching alone is determined to be the appropriate level of service (typically, when a full blown eating disorder is not currently present), telephone coaching services are available to people all over the world. To learn more about emotional eating, our services, and our fees, visit our website, www.aveighout.com---or call for a free telephone assessment, (513)321-7202-- or register for our FREE One-Hour Telephone Seminar, "An Introduction to Overcoming Emotional Eating", at www.aveighout.com. Acoria and A Weigh Out Life Coach
