

Edward P. Tyson, MD

Description:

Dr. Tyson is board certified in adolescent medicine and family practice and has been treating eating disorders in females and males of all ages for over 17 years. You will find him and his staff to be compassionate, understanding, knowledgeable, and highly skilled in their care. Dr. Tyson can address all of the potential medical issues, including any complications and medication, and can coordinate care from all those involved in treatment. In addition, he has over 15 years training in psychotherapy and understands the psychodynamics involved in eating disorders and can address those issues as well.
